---

## SUMMARY

Entry-level Software Engineer with experience in building responsive web applications using semantic HTML, CSS (Flexbox/Grid), and JavaScript. Strong foundation in version control (Git), API integration, and data annotation for AI applications (98%+ accuracy). Proficient in collaborative development using GitHub and basic relational database operations. Passionate about continuous learning, team collaboration, and scalable code practices.

---

## PROJECTS

### PERSONAL PORTFOLIO WEBSITE | *HTML, CSS, JAVASCRIPT*

Developed a responsive portfolio website featuring:

- Hero section with intro & CTA
- Profile section with skills and experience
- Project showcase section
- Dynamic contact form using JavaScript DOM manipulation (real-time form data rendering)
- Built using semantic HTML and responsive CSS layout with Flexbox/Grid.

---

## TECHNICAL SKILLS

- **Core Web:** HTML5, CSS3, JavaScript, PHP
- **Layout & Styling:** Responsive Design, Flexbox, Grid, Media Queries
- **Version Control:** Git, Github
- **Database:** Basic MySQL/PostgreSQL
- **Tools:** VS Code, Chrome DevTools, Excel
- **Concepts:** API Integrations (RESTful), Agile/Scrum, SDLC
- **Learning:** JavaScript Algorithms, React (Planned Q4 2025)

---

## WORK EXPERIENCE

### AI Data Trainer | Appen Limited

Jul 2022 - Present

- Labeled and verified ML training data (text/image/audio) with 98%+ accuracy.
- Handled e-commerce computer vision projects with consistent quality benchmarks.
- Improved data evaluation workflows, processing 500+ daily queries with a focus on data relevance and quality.
- Collaborated remotely with global team members, following project documentation and timelines.

### Head Lab Assistant | Gunadarma University

Sep 2019 - Jun 2021

- Managed over 50+ computer units, mentored assistants, and received "Best Lab Assistant" award.
- Developed technical documentation and practicum modules for Database Systems and Web Programming.
- Supported 200+ students with web development and database programming.

**Youth Program Director | GMAHK Kemang Pratama**

**Jan 2022 - Present**

- Directed teams of 50+ members in skill-building camps and community projects (environmental cleanups).
  - Mentored junior leaders through structured training, boosting program engagement by 40%.
- 

## **EDUCATION & CERTIFICATIONS**

### **Bachelor of Information System (Expected 2026)**

Universitas Terbuka (Online)

- **Focus:** Web Development, System Design, Software Engineering

### **Certifications**

- **RevoU:** Intro to Software Engineering (Jul 2025)
- **HP Life:** Agile Project Management Certifications (May 2025)
- **freeCodeCamp:** Responsive Web Design (Expected Sep 2025)
- **freeCodeCamp:** Full Stack Developer (Expected Dec 2025)
